

CORRECTION

Open Access

Correction: A randomized controlled trial investigating the effects of PCSO-524[®], a patented oil extract of the New Zealand Green Lipped Mussel (*Perna canaliculus*), on the behaviour, mood, cognition and neurophysiology of children and adolescents (aged 6–14 years) experiencing clinical and sub-clinical levels of hyperactivity and inattention: study protocol ACTRN12610000978066

James D Kean¹, David Camfield¹, Jerome Sarris^{1,2}, Marni Kras¹, Richard Silberstein¹, Andrew Scholey¹ and Con Stough^{1*}

The authors have identified an error in this published article [1].

On page 4, under “Treatments” the milligrams listed have been calculated incorrectly. The sentence:

“The Lyprinol capsules contain 18% EPA (46.8 mg) and 14% DHA (36.4 mg) per capsule.”

Should read:

“The Lyprinol capsules contain approximately 14% EPA (7.3 mg) and 11% DHA (5.5 mg) per capsule.”

We apologize for this error.
